Electronic File Cabinet

Going Paperless has **NEVER** been so easy.

Store all published documents in a secure and searchable library to ensure fast retrieval of documents and improved client service. Also, control who sees what through advanced granulated file access controls and password protection of files.

Easy to Use. With Eyes Only you can find documents fast using our powerful search tool. Arrange how your documents are organized according to your needs. Clients can receive an automatic email notification for new available documents.

Save money with among the industry's lowest TCO (Total Cost of Ownership) for a paperless DMS (Document Management System). Eyes Only is designed for the unique needs of Small Business.

Cloud or No Cloud? With Eyes Only you don't have to choose. Use the Cloud or keep things on your own servers, or both.
